Organic liquid fertilizer

JAIKAR AGRO CARE

**BEST
QUALITY**

PRODUCT

**Premium quality products
@Affordable price.**

"Improves the health and productivity of soil and crops"

Better seed Germination

*Enriched
With*

**“organic carbon. micronutrients.
vitamin. hormone. essential. humic
acid 98%. fulvic acid. amino acid.
betanical extracts.”**

JAIKAR SOIL

-:Benefits:-

- * Improves microbial activity of soil.
- * Easy nutrient provider micro organisms & plants.
- * Soil conditioner
- * Soil health improvement.
- * Improves C:N ratio of the soil.
- * Improves soil texture and permeability.
- * Help to balance PH of the soil.
- Healthy seedlings.
- * Better root development.
- * Increases germination rate.
- * Prevents roots from early fungal and bacterial infections.

⇒ Recommended for all soil application

Doses

1 liter. 1 Acre

● **AD Formulation for growth promoter**

● **organic carbon. *organic nutrition.* Amino Acid.*P.G.P*Hormone.**

**Enrichd
With**

JAIKAR GROW

BENEFITS

- * **increases the quality and quantity of crop yield.**
- * **Increases number of side branches.**
- * **Healthy growth development.**
- * **Environment friendly.**
- * **Faster development and early maturity.**
- * **Preventi plants form various common diseases form various nutrients.**
- * **make plant healthy which results in tolerance to pests.**
- * **Increases chlorophy formation beeter photosynthesis.**

Recommended for all crops

**Application: spray/dreching/
drip**

Doses

2_3.ml

1.liter water

JAIKAR AGRO CARE

"It contains organic boron & calcium bio-available nutrients for flower & fruit amino acids vitamins and phyto hormones organic carbon and other organic substances"

JAIKAR BOOSTER

★ *Benifits* ★

- * Reduces premature Flower & fruit drop.
- * Increases quality & size of the final yield.
- * Better flower & fruit setting.
- * Increases self life of the final prodecre better market value.
- * The female increases the number of flowers and stops the flower from leaking.
- * Help in increasing the legth and size of the fruit.
- * Increases the activity photosynthesis making the size of the leaves larger.

"FLOWERING & FRUIT DEVELOPMENT"

Application
Spray/Drip/
Irrigation

Doses
2.5-3ml
for 1 liter

{Fortified with}
all content is nourishing, preteching
enhancing organic power

JAIKAR KING

–:Benifits:–

- *protect seeds from diseases and insects.
- *White roots develop grow rapidly.
- *Increases germination rate.
- *Beeteria help in the absorption of food components in the soil.
- *Enhances growth of micro organisms in the soil.
- *Increases flowering better development of the fruit and increases quality quantity & size of the final yield.
- *Increases food preparation capacity increase resistance power to against fungi deseases pests and viruses.

RECOMMENDED FOR ALL CROPS!

Application
spray,Drip, Irrigation

Doses
1 liter/1 Acre soil Appaly
2_3ml spray

Salt of phosphorus-40%, copper-10%,
formulation for fungal disease

Add With

JAIKAR F-50

-:Benefits:-

- *Regular use of jaikar f-50 the plants become healthy.
- *Jaikar f-50 is known to increase plants disease resistance capacity thereby reduces the use of pesticides used for controlling various chewing pests.
- *improve root growth.
- *enhances crop.
